Press information

Baking with Westmark

Baking is trend, style, creativity, joy, cosiness, temptation, feeling at home, giving, pampering, saying thank you, ... and naturally Westmark helps out.

A wide baking product range with classic baking pans such as spring forms, ring cake, Emperor's cake and baking sheets along with colourful silicone baking moulds for appetising small cakes, muffins, cupcakes and cakepops entice in attractive packaging designs.

And they are gladly joined by all kinds of pastry tools from cheerful, fresh silicone baking brushes and trendy cutters for fondants and various models of cream and decorating syringes up to the classic confectioner range.

Westmark helps out...and thoroughly. The new product line complements the baking products already in the range, turning it into a comprehensive line that lets the dealers choose between small, medium and large, complete ‚Baking‘ modules.

The ‚Baking with Westmark‘ theme will be presented during Ambiente 2015.

Westmark GmbH

Westmark is a medium-sized company based in Elspe in the Sauerland, in the south-western part of the German state of North Rhine Westphalia. Westmark offers a large range of kitchen aids and useful household goods for kitchens and caterers. Its products are distributed by specialist outlets as well as more broadly. A large proportion of the range is produced within the company itself; which is just what you'd expect from products „Made in Germany“. The company boasts more than 50 years of experience in the plastics and metal manufacturing sector.
