Saleen – the springtime colour offensive with table sets and baskets

Saleen, the brand from Westmark, lures springtime with varied fresh colours.

Red, orange, yellow, green, pink and aquamarine coloured fine-mesh sets are new in the product range. Imaginatively decorated as a spring bouquet in a Saleen bag, this is a real eye-catcher and display tip.

The range of typical fabric sets, which are all made in Germany in Sauerland, was expanded with a few colours like a powerful pink, a bright orange-red and a sophisticated almond green.

The popular baskets made of foodsafe polypropylenes in the trendy colours put a fresh dash of colour on every set kitchen or garden table and can even decorate living rooms and bathrooms.

Whether used as a breadbasket, fruit, decoration or storage basket for cosmetics in the bathroom - very practical is that you can simply put a soiled Saleen basket into the dishwasher. So it's clean and ready for use again in no time at all.

The next concrete mission for the brightly coloured basket troop is: Easter ...

Westmark GmbH

Westmark is a medium-sized company based in Elspe in the Sauerland, in the south-western part of the German state of North Rhine Westphalia. Westmark offers a large range of kitchen aids and useful household goods for kitchens and caterers. Its products are distributed by specialist outlets as well as more broadly. A large proportion of the range is produced within the company itself; which is just what you'd expect from products „Made in Germany“. The company boasts more than 50 years of experience in the plastics and metal manufacturing sector.
