Saleen – new colour variations in the braided sets

Saleen, the brand from Westmark, is a synonym for braided table sets. Manufactured in a great number of colours, the sets are genuine decorative mats for plates and the like.

And if something happens to slip off the edge of a plate, you can put the morsel from the clean mat back into your mouth with a good conscience. The Saleen sets are made in Germany from foodsafe polypropylenes. Genuine trusted mediators - especially near foodstuffs. And to make sure everything is really clean - put it right into the dishwasher. Marvellously easy to clean.

New on the market are four sets with interesting colour variations. On the primary colours grey-blue, almond-green, aubergine and silver-grey, light and medium-grey strips move towards a black centre. The ensemble has a discreet shimmering effect! It makes an exceptional and original impression.

Available now.

Westmark GmbH

Westmark is a medium-sized company based in Elspe in the Sauerland, in the south-western part of the German state of North Rhine Westphalia. Westmark offers a large range of kitchen aids and useful household goods for kitchens and caterers. Its products are distributed by specialist outlets as well as more broadly. A large proportion of the range is produced within the company itself; which is just what you'd expect from products „Made in Germany“. The company boasts more than 50 years of experience in the plastics and metal manufacturing sector.
