Salads and barbecues with Westmark

Summer, sun ... and the garden beckons. Everyone is drawn outdoors. Barbecuing, pleasant evenings with the family and friends or lively garden parties are the prominent picture.

Westmark offers a comprehensive range of kitchen aids such as peelers, herb shears, graters, strainers, salad spinners on up to salad bowls. In a nutshell, a true complete packet for preparing the popular ‚salad‘ summer dish.

On top of that there are special items such as the salad butler that, with its four hinged covers, makes sure that the cover and bowl can be transported as one, single unit. The round container in the middle of the cover of the salad butler provides space for approx. 300 ml dressing.

With various hamburger makers, stylish barbecue cutlery, small steak thermometers and fancy grill skewers, Westmark continues to develop the products aimed at ‚barbecuing‘.

Placed on the table next to the pepper mills you can also find barbecue sauce and bread in the foodsafe, dishwasher safe baskets manufactured from polypropylene from Westmark's own brand: Saleen.

A complete package that provides the dealer with a theme-based solution.

Salad and barbecue – order now.

Westmark GmbH

Westmark is a medium-sized company based in Elspe in the Sauerland, in the south-western part of the German state of North Rhine Westphalia. Westmark offers a large range of kitchen aids and useful household goods for kitchens and caterers. Its products are distributed by specialist outlets as well as more broadly. A large proportion of the range is produced within the company itself; which is just what you'd expect from products „Made in Germany“. The company boasts more than 50 years of experience in the plastics and metal manufacturing sector.
